

PERSONAL INVITATION

Tuesday 07 May 2019 at 17.00
Paleis op de Meir – Antwerpen

DOES THE DIGITIZED WORKPLACE REALLY FUEL WORKFORCE PRODUCTIVITY AND ORGANIZATIONAL EFFECTIVENESS?

For more than a decade, the bulk of transactional and routine tasks is being automated. In parallel, robotics and artificial intelligence are taking on an increasing number of high value functions in areas such as accounting, recruitment, strategic planning, customer service, logistics, among many others.

Today, the challenge for HR is not only ensuring the right processes, systems and technology are in place, but also assessing how work gets done, redefining the new skills to develop, judging which new role people must play, and reshaping the HR operating model at the intersection of humans and technology. Moreover, HR must ensure that the digitized workplace complies with the company's culture, labor law and social governance. Last but not least, HR must give a very close attention on how to reskill and redeploy workers displaced by technology.

The HR Executive Circle - *Antwerp Chapter* has the pleasure to invite you to join a great debate of ideas and experiences with other HR leaders from different organizations and industries, and to get actionable ideas on how to overcome the challenges and exploit the opportunities of the digitized workplace.

THE HR EXECUTIVE CIRCLE

BELGIUM'S PREMIER HRM EXECUTIVE NETWORK SINCE 2006

About the HR Executive Circle

Created in 2006, the HR Executive Circle is the country's most exclusive and trusted CHRO network to interact face-to-face with the most inspiring HR leaders. Limited to a drastically selected group upon personal invitation, and rejecting any commercial and academic speeches, its unique concept delivers an unparalleled level of content, interaction, experience sharing and networking. Thanks to the influence of its Fellow Members community, the HR Executive Circle intends to be a trusted network specifically designed to share knowledge and confront opinions among top HR leaders, get inspirations from real-life cases, and elevate HRM thinking within a collaborative environment
